

PROGRAM OVERVIEW

The College of Liberal Arts and Sciences Individually Designed Major (IDMA) with an Interdisciplinary Studies option provides students with the opportunity to construct an individualized major that meets their unique needs and interests. This flexible program allows students to follow academic pursuits that transcend traditional department or college boundaries, combining coursework from two, three, or even more academic disciplines to explore a particular theme. The IDMA tends to be more focused than traditional majors and should not be considered a default major for students uncertain about their course of study.

ACADEMIC ADVISING

The College of Liberal Arts and Sciences (CLAS) supports students to graduation using a shared advising system. CLAS students have two academic advisors with whom they should meet regularly to discuss academic and degree progress: a CLAS Academic Advisor and a major advisor.
